

Forms Lab

In this lab we'll create a checkout form.

1. Create a checkout.html page.
2. Don't worry about styling the page. We'll deal with that later. But do add the features below.

The image shows a web browser window displaying a checkout form. The browser's address bar shows 'localhost:3000/...' and the page title is 'View cart/Checkout'. The form is titled 'Where shall we ship this?' and includes several input fields for shipping information: 'Name to ship to:', 'Address:', 'City:', 'Region/State:', 'Zip/Postal Code:', and 'Country:'. Below these is a section titled 'How shall we ship it?' with a 'Shipping method:' dropdown menu currently showing 'Next Day - \$100'. The next section is 'How would you like to pay for it?' with a 'Credit card number:' input field. Below this is an 'Expiration:' field with two dropdown menus for month and year. A checkbox labeled 'Remember this credit card number for next time I check out.' is present. At the bottom is a blue 'Place Order*' button. The footer includes 'Copyright © Northwind Traders' and social media links for Facebook, Twitter, and LinkedIn. Annotations with arrows point to various parts of the form: 'Header section' points to the top navigation bar; 'Form for shipping address' points to the shipping address fields; 'Dropdown list' points to the shipping method dropdown; 'Must look like a credit card number' points to the credit card number input field; 'Select lists for month and year' points to the expiration date dropdowns; 'Checkbox' points to the 'Remember this credit card number...' checkbox; and 'Submit button' points to the 'Place Order*' button.

Submit button

3. Create a login.html page

The screenshot shows a web browser window with the title "Login". The address bar shows "localhost...". The page header includes "Northwind Traders", "Things to do -", "Your cart 0", "Welcome! Log in", and a search bar. The main content area features the Northwind Traders logo (a green fork) and the text "Northwind Traders Fine foods for restaurants". Below this is a "Log In" section with a light blue box containing the text "Please enter your username and password or Register if you don't have an account." The "Account Information" section contains two input fields: "Username" and "Password". Below these is a checkbox labeled "Keep me logged in" and a "Log In" button. The footer includes "Copyright © Northwind Traders" and social media links for Facebook, Twitter, and LinkedIn.

4. Create a registration page

The screenshot shows a web browser window with the title "Register". The address bar shows "localhost:3000/app/auth/register...". The page header includes "Northwind Traders", "Things to do -", "Your cart 0", "Welcome! Log in", and a search bar. The main content area features the text "Create a New Account" and a light blue box containing the text "Use the form below to create a new account." The form is divided into two columns: "Account Information" and "My address information". The "Account Information" column contains input fields for "Username", "E-mail", "First (given) Name", "Last (family) Name", "Password", and "Confirm Password:". The "My address information" column contains input fields for "Company Name", "Address", "City", "Region/State", "Postal Code", and "Country". Below the form is a "Create User" button. The footer includes "Copyright © Northwind Traders" and social media links for Facebook, Twitter, and LinkedIn.
